Nascom Documentation Library – Zeap Assembler

Preface

1. Introduction

1.1 Aims of Zeap

1.2 Comparison with Zilog Assembler

1.3 Machine requirements

2. The Zeap Editor

2.1 Editor operation

2.2 Zeap Editor commands

3. The Zeap Assembler

3.1 Assembler operation

3.2 Expressions

3.3 Source statement syntax

3.3.1 Labels

3.3.2 Instruction format

3.3.3 Comment lines

3.4 Assembler options

3.5 Assembler directives

3.6 Assembly listing

3.7 Object generation

3.7.1 Tape object

3.7.2 Memory object

Appendix A. Zeap operation

Appendix B. Zeap error codes

Appendix C. Zeap Editor commands

Appendix D. Assembler directives

Appendix E. Z80 Instruction set

Appendix F. Z80 opcode listing

Appendix G. Zeap internal registers

Appendix H. ASCII code table

Appendix I. Zeap 2.0 Object Listing (RAM version)

Appendix J. Zeap 1.2 operating instructions

Zeap 2.0 Reference Card
